

REDI-Sensor™

Now Available...

A real multi-application TPMS sensor developed with OEM technology, quality, and expertise

Part #	Description
SE10001	Redi-Sensor (314.9/315 MHz)
SE10004	Redi-Sensor (433.92 MHz)
SE53006	TPMS Sensor Assembly
SE54187	TPMS Service Kit
SE54189	TPMS Service Kit, REDI-Sensor and OE Style
SE57635	TPMS Valveless Sensor + Plastic Retaining Clip (metal cradle/bracket and band not included)
SE57772	TPMS Sensor Assembly

- A truly credible Aftermarket solution that is 100% OE-validated
- Meets all NHTSA and FMVSS No. 138 requirements
- Engineered to accommodate multiple OEM protocols and multiple platforms
- Triggered by multiple LF data commands and LF continuous wave
- “intelligent design” allows communication through multiple RF data protocols
